**SUBJECT: Soviet Espionage Activity, South America (C)**

**Re: U. S. Army Attache  
American Embassy  
Prague, Czechoslovakia**

1. (U) This letter and inclosure are in reply to your C-15-39, dated 23 December 1959, subject as above.

2. (C) The biographic information furnished herewith on Colonel Pyotr Pavlovich Sokolov is all releasable to Mr. Alberto Aden, Charge d'Affaires, Argentine Legation, Prague. The source of this information is the U. S. Army Attache, Buenos Aires, Argentina.

3. (C) OACSI files contain no information to indicate that Sokolov, either in the past or currently, has engaged in espionage activities. However, Sokolov as a Soviet attache stationed abroad is automatically suspected of such activities, in view of the established practice of Soviet Military Intelligence to deploy agents abroad under cover of military attache assignments.

4. (C) In a report dated 8 January 1960, ARIA Buenos Aires stated that no contact had been made with Sokolov since his departure in November 1959 "for a reported two-month leave"; however, that "Assistant Attache (Lt. Colonel Bogatyrev) stated on 21 December 1959 that Colonel Sokolov was to return some time, possibly in February 1960, after taking leave to Moscow...to participate in numerous ski competitions being held in Moscow. Further that he (Sokolov) was an excellent skier." ARIA Buenos Aires also said in this report that there was "strong speculation among official circles that Sokolov will not return to Argentina"; that "he is reported to have been under close surveillance by Argentine State Intelligence."

5. (C) We regret the lateness of this reply, which came about as the result of a series of administrative complications and hope that the information will still be useful to you in your ongoing program.

**FOR THE ASSISTANT CHIEF OF STAFF FOR INTELLIGENCE:**

Reference is made to Embassy's Telegram 65 of September 26, 1961 requesting information on members of Soviet Commercial Mission. A check of the biographic files of the Washington intelligence community reveals the following information:

Petr Akimovich Zakharikhin served as both chief (1958-59) and assistant chief (1960) of the Soviet Commercial Mission in Morocco where he was involved in real estate purchases for the Soviet Union. He allegedly urged that part of the profits made by Moroccans on the transactions be diverted to the local Union Nationale des Forces Populaires (UNFP), a left-wing political party. Zakharikhin acted as Assistant Commercial Counselor at the Soviet Embassy in Paris from 1951 to 1953 where he was suspected of being connected with intelligence activities. He is married, has two children, and reportedly speaks French.

In January 1952 Anatoliy Belov was reported to be a legal consultant with the Main Administration for Soviet Property Abroad (GUSMZ) in Hungary and also a military interpreter in the Soviet Army reserves with the rank of junior lieutenant. When he graduated from the Law Faculty of the Institute of Foreign Trade in Moscow, in 1950, Belov was described as a bachelor earning an "average" income and as a diligent but avaricious Komsomol member.

1. This office has no information on smuggling activities, espionage rings or any other organized operations directed at Kagnew Station. From time to time the Russian Military Attaches have indicated interest in Kagnew Station, but there is no indication that they have succeeded in these attempts.

2. Soviet Embassy personnel currently in Addis Ababa are as follows:

Ambassador  
Counsellor  
Commercial Counsellor  
Military Attache  
First Secretary  
Assistant Military Attache  
Second Secretary and Consul  
Second Secretary  
Second Secretary  
Attache  
Attache

b6

USAIS

It must be assumed that these officials are active in furthering the interests of the Soviet Government here. The Military Attache has shown increasing interest in countries peripheral to Ethiopia since his return from Moscow in the Summer of 1957. The Assistant Military Attache is apparently concentrating on Ethiopia proper. The Military Attaches of the Soviet Embassy have made several attempts to participate to a greater extent in the social life of Addis Ababa. They also have used the cocktail party-movie show evening as a means to approach Ethiopian officials. In other areas the Soviets have stepped up slightly their attempts at economic and cultural approaches to the Ethiopians. For example, they have increased the number of invitations to Ethiopians to visit Russia. They are reported to have made offers of economic assistance to the Ethiopian Government and on one occasion, utilizing the Czechs, they are reported to have offered Air Force assistants.

3. Perhaps the greatest advances by a communist nation in the penetration of Ethiopia have been made by the Yugoslav Government. Slavko Pecovic, Counsellor of Embassy, is the head of the Yugoslav communist party in Ethiopia. He is reported, also, to have attempted to form a party here and to recruit Ethiopians. Members of the Yugo-Ethiopian Company are also reported to be active in the Yugoslav communist party. The Yugoslavs recently received a contract to develop the port of Assab and have been rumored to be investigating the possibilities of improvements in the port of Massawa.

~~SECRET~~

Yugoslav economic advisors have prepared a study for the economic development of Ethiopia. However, the present status of this effort is not known.

4. The Czech trade mission to Ethiopia   more of an intelligence mission than a business one. b6 is reported to be very inquisitive about many items not necessarily connected with trade.

The principal concern in the expansion of Yugoslav communistic activities here is the potential afforded the Soviets should they ever succeed in directing the activities of the Yugoslav communist party. A Yugoslav communist party operating in Ethiopia would provide the Soviets with a ready apparatus in being should the above occur.
